

Hard Landscaping Construction (non-domestic) Between £300,000-£1.5m

Total Protection T/A Total Protection Landscaping Dollar Bay

Client Mount Anvil
Architect Ian Simpson Architects
Designer SimpsonHaugh and Partners
Suppliers Crowders, Keyline, Marshalls Paving, Soil and Stones, Travis Perkins

Total Protection was asked to supply and install all aspects of hard and soft landscaping to external areas of the Dollar Bay project. This included a diverse number of items ranging from paving and planting to the installation of a unique play area. All items have been supplied to meet the needs of the client (Mount Anvil) and installed by a professional and experienced labour force.

Judges' comments

"The installation of the extensive paved areas surrounding this new 37-storey apartment block on the Isle of Dogs, east London, shows the skill and professionalism of the contractor's workforce. The construction of a new sports area involved working with significant changes in levels and the construction of innovative vertical fencing that remains solid despite having no lateral support. This was a complex scheme that has been very well executed."
